My only complaint is the use of the two basketball courts located at Barnes FH and Eifler are occassionally used concurrently for various reasons. For example, on occassion Eifler will be used during lunch for blood donation and Barnes for a Signal exercise. I understand that these events have precedence over recreational activities such as basketball, however, it seems that these events could be scheduled in a staggered way so that at least one basketball court is always open during lunch.

If there were some place on post to ride OHV's, including motorcycles and All Terrain Vehicles such as an OHV park or Motocross track on post it would keep soldiers from having to drive long distances to ride and enjoy the sport of riding. There are enough soldiers on post to justify the opening of such an area, and there are alot of areas on post that would be perfect for such a place. You would also have soldiers willing to volunteer to keep such a place clean and groomed to ride. With all the public lands being shut down to motorized vehicles, The OHV community has suffered. Having a place on post to ride would definitely boost morale among those that own OHV's.

Current Condition of Athletic Fields is unacceptable. The only two decent softball fields (Warrior and Sentinel) are used every day for PT, and have been destroyed. One has been astroturfed, but the other is all dirt. Another decent field (Brock) was placed off limits to softball due to Garrison staff cars being hit by balls going over the fence. The two remaining fields (Pauley and Smiley) are well overdue for an overhaul.

This post is in desperate need of a Car Wash.

Jeannie's Diner is a good facility, however, it does not have an adequate amount of seating or enough staff to accomodate the lunch crowd.

The equipment at Eiffler gym is always breaking down and in poorley maintained for the workload it is under.

To the soldiers with families in the Army, the Child Dev Centers and school age programs are life savers! The only drawback that I have experienced is the high cost of child care. I have two childred in care and I have to spend \$950.00 a month for this service. Just because I am a SFC does not mean that I like spending so much of my leisure budget on Child Care. I feel the younger troops do need to be helped with cost but more money should be spent in this area.

The pool hours cater to the retired. They should be open as long as the gym is and on weekends as well. You need to start catering to the soldiers needs and not people who are no longer in the military. If not open the entire time the gym is, then at least until 1900 on weekdays to give soldiers that are off at 1700 a chance to swim. Stop kicking soldiers out of the pool when you have swim lessons. Most times our lap swimming will not interfere with those taking lessons. Also, it should be open from at least 0900-1400 on both Saturday and Sunday. Have all the facilities in the gym available for use. If need be shut it down when the soldiers are working and re-open it on our off time.

MWR here on ft Huachuca does a super job. Many congrats to the entire staff here. As we live off post and somewhat out of town, and don't always have time to "taxi" the kids around to weekday and weekend activities, I'd like the staff to examine the possibility of extending the Sierra Vista/Fort shuttle service further out into Sierra Vista and county collection/drop off points, based on potential user input, population concentrations, and other data.

Thanks very much.

The gyms on post should be open longer. I think at least one of them, preferably Barnes Field House, should be 24 hour. The TMAC is also very pricey for what you get. If you try to have professional association lunches there, they charge you for every little thing, which I think is outrageous. If anyone should be benefitting from the subsidized programs through MWR it's soldiers.

At times, the insulting acronym for MWR is Money We Require, not Morale, Welfare, and Recreation. Overseas, MWR is more valuable and widely used, especially when on unaccompanied tours or during deployments. But, not having baseball tickets available or having soldier's pay for events hosted by MWR on base (boxing smoker) is not acceptable. Facilities not tied to IET soldiers require greater attention. 99 cent movies are a big plus, but the advertising of events is limited; having events in this area is rare and often not well advertised.

I do not use many MWR facilities or activities. However, I have been to the TMAC for several different occasions. I was invited to a rather large retirement dinner at the TMAC and was definitely not happy with the price, quality, and service. For \$25.00 a meal, I received a medium quality meal, service? - I had to get the food myself. For that amount of money I can certainly get an absolute wonderful meal with great service off post.

Add a climbing wall at the Sportsman's Center. Offer climbing instruction. Start a climbing club. Offer climbing trips. Organize hikes in the Huachuclas to clean up the trails that are used by illegal border crossers. Offer hiking trips off post, Grand Canyon, slot canyons, Petrified Forest Park, other parks and monuments in the state. Organize and offer bicycle rides for all skill levels. Organize 5 and 10K runs for all skill levels. Organize trail repair events. Organize 4-wheel drive vehicle events on post. Organize and offer cross country runs of up to 10-miles. Build and operate a restaurant that offers lunch. Make the selection better than a fast food location. Have drive through, inside lunch line, buffet, sit down service. Something that would compete successfully with the NCO Club. Better sandwiches, good diversity in the menu. Either that or build out a food court at the PX, enlarge, add, improve, improve parking, advertise it. Offer photo trips in and around Arizona - many locations possible.

I really appreciate having the Buffalo Corral here. I am not currently able to keep a horse of my own, and it's wonderful to be able to rent a horse for a few hours in this beautiful country. It's a great connection to the old west/Buffalo Soldier heritage in this part of Arizona, and it's especially fun watching kids with horses. The corral crew and volunteers seem to try hard to do a good job even with limited funds and old facilities. I used to RV a lot to other military facilities, and it's rare to find a stable like this one. Please keep it operational!!

The Mountain View Golf Course maintenance has been mis-managed for years. MWR is letting the golf course deteriorate to the point where patrons are now simply staying away. It is a point of discussion almost daily and always reverts back to the fact that the MWR and Leadership at Ft. Huachuca JUST DON'T CARE.

An extreme sore point is that everyone must pay a \$1.00 "Maintenance Fee" for daily play but this money NEVER goes to golf course maintenance (at least not that anyone can see).

Patrons now drive 45 minutes south, north, or west to play at golf courses that are properly maintained and where the customer is treated with respect.

As a 'tenant' in the Private Mount Area of the Buffalo Corral I would appreciate very much the repair of the facilities for which I pay. The sheds, in many cases need repair (during the rainy season water seeps in) and painting to protect the structure and most importantly the stalls for the animals are in desperate need of attention. Some stalls are hazardous to the health and well being of horses. For Example: many enclosures (the paneling) are rotting - some have rotten under ground, some paneling has been chewed or eaten by bored horses, most shelters (roofing) are lose and in danger of becoming detached by strong wind gusts, the fencing of most 'turn-out corrals' are a dangerous hazard (lose and or not strong enough to detain a panicked horse or a curious horse) and equally important the grounds are unkempt and untidy. The latter being the lack of concern by some tenants. These tenants should be counseled and advised of their responsibility to maintain a clean and tidy area around the shed and stall they rent.

The BC is not staffed adequately to correct these issues nor are they 'concerned' enough.

The golf course is in poor playing shape and has been for many years (especially when you compare it to other courses in southern AZ. The golf course used to be in its very best shape back in the late 1980s. The commanding general at that time was an avid golfer and polayed all the time.

It is to the point I refuse to play on the post golf course until it has proven that it is in better shape. The driving range is in poor shape as well. I refuse to use my \$2,000 dollar set of golf clubs (which I ordered from the MWR golf pro shop) on the driving range or the course until they are in better shape. I do not like hitting of of ground that has a lot of rocks to nick up my clubs. I'd prefer to pay more to play at a better maintained golf course off post (and I'm currently doing that now). Because of the driving range's heavy use,

Finally, I recommend puting in permanent driving tee/driving platforms with varying heights of astro turf to prevent clubs from being damaged during practice.

MWR events, in the last several years, have not been advertised well, have not been well coordinated, nor has the whole program progressed and changed with the needs of the Installation, at least as well as I believe it should have. Overall, I think there still exists a solid foundation with which to rebuild the organization. However, I believe it's going to take the right type of leadership, with Command support, to redevelop the Installation's core community infrastructure.

MWR took over the recreational vehicle and trailer storage lot and most folks that used the lot were very unhappy. Why have to pay for storage area was the question. MWR asked everyone to bear with them and they would demonstrate they would make it better. They have done that. They keep the lot clear of weeds and other growth. The best thing they did was to install a cypher lock so that everyone had their own combination and didn't have to go to the MP station to get a key. This allows you to access the lot when ever you want to. It is better. Thanks

For the period used in this survey I am not a very good participant. I have been a Caregiver for my wife who is a partially bed bound and restricted to the home cancer patient for the last 18 months. In the past we have been much more active in post activities.

The climate of leadership must change in order for MWR to improve; i.e., leaders are afraid of taking risks, of letting customers have a greater say in policies and procedures, and become more involved through councils and volunteer groups.

This is painfully obvious if one travels from post to post and sees the vast differences in ways & methods like activities are managed. It is as if the installations are COMPETING AGAINST EACH other instead of SHARING WITH EACH other. "WHAT WORKS" needs to be mandated until PROVEN unworkable.

Methodologies eminently successful at one post are rejected out of hand at another post, for no other good reason than the current temporary (2 year)garrison commander wants to walk on eggs for his tour and not have any MWR "problems"...More LEADERS are needed at Garrison Command- people who have LED others for 20-30 years, not MANAGED computers, papers, and analysis requirements. MWR required LEADERSHIP, not Management.

When LED, MWR does just fine. When not...it is just a thorn in the side of the garrison commander whose actions speak to his unspoken wish MWR would go away and not bother him for his 2 years. His mouth speaks Quality of Life, but his actions don't.

And lastly, what incentives exist in the MWR programs to be better? Sure, a failing-profit facility might close...but what good things happen if a facility does well? It seems noadays, MWR strengths shore up the weaker activities...There seems to be no motivation to do well, or to succeed...so why are we surprised at less than success?

The installation has grown significantly in numbers of people. The eating establishments have not grown to meet the needs of these people particularly during the lunch hour(s) during the week. The lines are long and many people do not have the time to wait. One suggestion is a simple sandwich shop offering small regular bread sandwiches. Many of the offerings on post are heavy meals which many people do not wish to have at lunch.

One of your questions references the elimination of "Army club facilities/programs". What's the point? The clubs are already closed. One of the worst decisions ever made was to close the Officer's Club and consolidate the club with the NCO Club. This eliminated a social gathering point where Officers, NCOs and their spouses could meet and have open discussions with their peers. Now, it's "one happy family" where business is discussed in front of leaders and their subordinates. I guess it solidifies the change the Army has made in becoming a social welfare organization and all the politically correctness that goes with it.

Why do we waste the use of active duty personnel and monies on boxing and chorus groups?

Why does the local Army channel continue to blast rap music during it's broadcast?

It appears to me that Fort Huachuca does not care about the Welfare of it's soldiers to the extent that other installation do. For example, you could at one enter the Golf Course from on-post, the post commander decided to close that and make entry from off-post, to increase the ease for civilians. The Sportsman Center (Rod & Gun) has a very limited inventory, and in-experienced personnel as do most of the Outdoor facilities. Again The Sportsman Center caters to the civilian population, there are times that military personnel can not even get on a trap/skeet field because of the civilian private clubs. This is a Installation "run by civilians for civilians". Most of old timers say: Any familiarity between the US Army and Fort Huachuca is purely coincidental.

As you can see from this survey, I do not now use MWR facilities. I have used the Hale Koa in Hawaii and plan to do so again this summer along with their beach and snorkeling services. I live more than 60 miles from the post and I make one run a month to the commissary and PX. I have made special trips to both for needed items and spend about \$500 a month in both facilities over the course of a year (although this year it will be more since I bought a new computer and printer at the PX). When I was in the military, I was a big fan of their hunting and fishing opportunities along with their gun clubs. I was also a big bowling participant at every post where I was assigned and played a lot of raquetball. When I was stationed in Europe and Korea, I was always in the weight rooms and libraries and used the post dining facilities and clubs extensively. I am a big fan of MWR programs for members of the military and having spent 27 years on active duty and raised children in the service and referred members of my command to their programs, I can't say enough good things about all that they do. Now that I am retired and active in the civilian community 60 miles from the closest installation, I just do not use MWR. I am still convinced they are an important service for our service men and women. Thank you for letting me participate in this survey and I am sorry that I could not be more helpful.

I am probably not a good choice to answer this survey inasmuch as I have lived away from military facilities for over 10 years until recently. Furthermore, I am retired and generally do not avail myself of MWR activities other than outdoor recreation occasionally. I prefer to avail myself of local businesses and stay active in the community.
My general impression of MWR activities is they are poorly run with usually an unmotivated staff. I normally say to myself "it's a good thing this employee works for MWR because he/she would be fired in the private (for profit) sector."

The sportsman's center desperately needs new management. I have purchased many firearms and related products from this facility in the past. Currently they no longer stock many items. The product selection and inventory is poor at best. I purchased a firearm there this month, and have decided that it will be the last unless major changes are made to the facility and or the management. The people working there do not know anything about firearms or associated products. Employees provide poor customer service, ignoring you and they fail to follow-up with you on purchases. I had to continuously prod the employees to do their job, when ordering my firearm. I purchased it, in advance, and it took me constantly stopping in for two weeks to get them to order, process and deliver it. In that time they promised to call me and update me on the progress. I never once received a call and every time I showed up at the center, it was like they didn't even know me. Only the most expensive high-end items are stocked. The sportsman's center does seem to cater to a select group of "good ole' boys" who regularly hang out there drinking beer and socializing with the employees. If you are not part of that group, then forget receiving any customer service. If the center received a face-lift, was advertised more, and had better management it would do more business. Being hidden away, no one knows about it or the benefits it could provide.

Another facility that needs immediate help is the Automotive Craft Shop. This facility is badly out dated. The equipment and tools are mostly broken and unusable. This facility is also run via the "good ole' boy" system. If you know an employee, you won't get charged as much (or at all) for using the facility or services. Most of the tools and equipment are so poor, that if you use them to work on your vehicle, you will damage it and make the problem worse. You basically can use the space to work and bring your own tools. The only benefit from using this facility is the vehicle lifts and the paint booth. New management and employees are needed immediately! The tools and equipment must be fixed or updated. Many broken tools are craftsman tools, they can be replaced for free by Sears & Roebuck (because of the lifetime guarantee), but they won't do it. You can change your oil at the craft shop, but you can't balance a set of tires there, that's how poor the place is.

The Army of the 21st Century isn't like the Army of the 70's, 80's, 90's, meaning that off post activities and become too competitive financially. So if there's a family living off post or even on-post most (GI) cities now provide relatively "cheaper" and better entertainment off post than on. The entertainment on post is designed with "young" family in mind yet, usually you'll find most of the off duty soldiers there are careerists (5,8,12 years) in the Army.

What the Army needs to do is do a better job of competing with off post activities. How, do they do that, well like anything else it all starts with that magic word called "MONEY"? Until the Army gives NAF/MWR organizations more money to spend you'll get that. The idea that a unit should have a car wash to raise this kind of money to help support these activities is in my opinion, STUPID, AND LUDICEROUS. The Army is more then a 40 hour a week job it's a life style, and that's why some early wanta-be soldiers don't make, so what am I saying? If the unit wants to plan something over the weekend for it's married/single soldiers THE UNIT should provide the funds necessary. After all, the unit seems to have enough money when it comes to "welcome home" parties etc. The Army as of the last 10 to 15 years has gotten cheap with its money, not to mention careless spending. If you want soldiers to turn out for activities then make the activity "attractive enough", in other words FREE!

You need to rehab the Skeet & Trap center to include building a classroom facility. Higher good folks and make it a nice place to go. Hold firearms training for all folks and don't charge the instructor an arm and a leg to use your facility. I teach AZ CCW, charge \$75.00 per student for 16 hours of required training. The last time I checked, on using the Skeet and Trap center as a classroom, the facility was unsatisfactory and they want \$25.00 per student.

I use the Golf Course on the installation but the course is in horrible condition. The only work at the course seems to be to cut the grass. I sure would like to see more maintenance on the course. Obtaining T times is difficult because of the number of people playing the course since it was opened to the public. We often play courses in the other towns in the area because we can not obtain T times on the installation until late in the afternoon on weekends. The cost to play the other coursed is within 5-6 dollars of the cost to play on the installation and the courses are in much better condition.

I would recommend limiting public play on the golf course on the weekends to allow soldiers, retirees, and civilian employees more opportunity to play when they are off from work.

I also hike and take my granddaughter to the picnic areas in Garden and Huachuca canyon. Both of these areas are used by hikers on the weekend but are getting rundown and are in need of improvements. Swings, slides picnic tables, and etc needs replacement.

Biggest shortfall is advertisement of activities. At best I MIGHT get the "Community Roundup" by email through my work position, but often even that is already out of date/many of the activities dates have already passed by the time the product is put out. Discount paintball - something I was trying to work out for my church youth group, I never knew about until the DAY OF the offer, making advanced planning for a group activity impossible.

Next biggest shortfall is the quality of food service at TMAC (and Lakeside when it was open). I would DESIRE to support MWR more through group functions at those places, but the cost is too high for a quality that is too low.

I can honestly say, however, that EVERY SINGLE MWR-related employee that I have ever dealt with on this post has been exceptional and demonstrate a TRUE DESIRE to help the customer. This is a community friendly post. It needs more management/assistance in running the programs, conducting Quality Assessment/Control and MUCH more help in Public Relations/Advertising.

THE RADIO IS USUALLY TOO LOUD IN THE BARNES FIELD HOUSE NAUTILUS ROOM! Otherwise I am fairly well satisfied with the equipment at the facility although for no apparent reason someone removed a multi-station (lower back extension, lat pulldown, leg extension and upright row) piece of equipment that I am sure others miss as well as I do. I don't like that we have to "check out" different handles and devices in order to use the lat machines in the "Hammer Strength" room at Barnes. Overall both Barnes (when the music is at a tolerable level) and Eifler gyms are very good places to exercise, and the staff at both are excellent.

The elimination of the Officers Club was a big, big mistake. There is a need for separate Officer, NCO and Junior Enlisted Clubs. The Lakeside Club was a true "old army" elegant Officers Club that people enjoyed going to and felt as though they were having a really enjoyable evening at. The TMAC is just a big room - unattractive inside and out. All the fancy lighting may be great for the young people (lower enlisted and junior officers), but it does nothing for the more mature senior officers and senior NCOs. Further the prices are too high for what you get. Not that the price is too high, you just don't get what you pay for.

It is important to have MWR activities and facilities that military personnel on active duty can avail themselves of at the lowest possible cost (or no cost) and which are of interest as well as importance to them. We seem to be getting away from taking care of the soldier and are opening up too many of the MWR facilities to civilians because of the need to offset costs. I would hope that this type of survey would depend heavily on input from active duty personnel stationed at Fort Huachuca. I know that the Army can do better across the board in regard to MWR activities and facilities.

Being retired, I too often forget about activities and services offered on post. Frequently I will use services off post which cost more and involve sales taxes without thinking of their availability on Fort Huachuca.

Perhaps, a local civilian style phone book or catalog of non-military services and programs, offered by the Army including MWR, AAFES and the Commissary, would be a useful referral tool. Not only would I like to save money. I'd also like to do a better job of supporting Army programs. Such a document could be mailed to your target audience once per year.

The renovation of the TMAC took awhile. I would eat there occasionally, but mainly for hail and farewell's. They spent alot of money and the place looks really good, but they did away with the take-out and fast service. They only offer a buffet and you have to eat there. I am only allowed 30 minutes for my lunch and I need to go someplace and pick up food (time required) and bring it back to the office to eat. Very disappointed in their change of service. I will not be eating there at all.

Thank you.

It would be great if there was someone in charge at the Mountain View Golf Course. The standard answer is that everything is on hold until they get a manager. This facility has so much potential. It is a shame to see it getting worse every year. They need a manager who is customer oriented and can train the workers to treat customers with respect.

I am not the young, fit soldier I was while in the Army, but I stay active coaching youth volleyball in Sierra Vista and at the local high school. I play volleyball during the company level season. I am most pleased about the availability of a volleyball court at the Eifler facility the past couple of years. The boys volleyball program at Buena HS started about 6 yrs ago and while we have tried to get enough interest to field a traveling boys team, we haven't been able to get the numbers required. Our local boys are getting better because they have had a court open to them to play against some older more experienced players from the military, both active and retired. Those older players have been around the world, and some have played against very good competition from foreign countries. Our local players are benefiting from their experience. Please keep your current policies for use of the Eifler Gym courts open and available to the local youth.

I had the pleasure recently of practicing on the softball field converted to a new artificial surface. It was wonderful to play on. It didn't feel as hard as the first astroturf fields I've played on. I hope it stands up to all of the use it will get, and if so, that additional fields will get it.

I use the TMAC for lunch-time meals, love the barbecue and german days. I don't frequent the clubs at night or for drinks, because of the inconvenience with getting home afterwards.

I haven't played a lot of golf the past few years, but I intend to play more in the future. Keep our rates as reasonable as possible while still providing for the proper maintenance of the course.

9 - 5 M - F are horrible hours for an MWR. Soldiers and most other people are at work during those hours. Evenings and weekends are when MWR services should be provided.

I'm not sure if the Thrift Shop on Fort Huachuca is associated with MWR, but it is a fantastic place, a great service for incoming and outgoing families, provides a lot of charitable services for soldiers and families, and should be advertised a lot more.

The Fort Huachuca Provost Marshall, especially the gate guards, is being overly strict about clothing requirements for motorcyclists, and many of us are avoiding the post because of this. The overzealous (even harrassing) behavior of the Provost Marshall on clothing requirements for motorcyclists discourages many retired soldiers from taking advantage of the MWR services and events on Fort Huachuca. The post has a history of being tolerant of motorcyclists' choice of dress, as long as we wear helmets, and many of us feel the Provost Marshall should return to a policy of tolerance and understanding.

I am retired and do not use the post facilities as much as I did when I was active and lived on post. During that time frame, however, my family and I made extensive use of MWR facilities. As a commander on post, I know the value of MWR to the troops and their families. So while my responses to your questionnaire may appear to show a lack of interest in using the facilities, I strongly feel GOOD MWR facilities are critical to maintaining good quality of life for our soldiers.

my concern is that the youth get somewhat short changed in their sports activities. The program on post seems very unorganized and the director seems to not care about the quality of a program that they provide. The schedules for the games seem to be delayed at getting out to the teams/coaches and events planned are changed at short notice with little to no explanation. We are not allowed to participate in programs provided in the community (off post) yet the program on post seems very limited and the people running the programs do not know answers to questions asked. My children have been in both Soccer and T-ball and we have experienced the same issues with both groups. The registration fees are pricey yet we get very limited things for that money. We did not get a t-shirt for soccer, I have heard that they did not give out trophies to the basketball kids and now that we are in t-ball I am not sure where my money is going? I would hope that we could provide quality programs that are comparable to those provided in the community so that the parents/children feel that the kids are all getting the best opportunities that they can to excel in sports.

While I do not personally use the bowling ctr and golf course and facilities, my family does. Both of these activities and their restaurants are assets to Ft Huachuca. An automotive/car care ctr where tires could be ordered and installed and basic services rendered would be a welcome addition to the post. A location like that of Taco John's would've been ideal. With the food facilities already in existence, the addition of a Taco John on a post so close to the Mexican border seemed redundant. A better choice would have been to keep the Lakeside open. Marketing it to the transient soldiers in the billeting across the street as a pub with grub and perhaps a small fitness ctr might have helped.

While I don't need the CDC or SAS facilities, having them on post greatly helps the soldiers and families that do. Youth Sports on post is a big convenience. These programs benefit families and improve quality of life. Also, while Barnes gym and pool is a great facility, the outdoor pools should be up and running in the desert in the summer months. Where's the beach?

ACS is a facility that newcomers should be able to spot upon first driving around the post. It's location is a bit remote - at the very least a high profile sign should be added that anyone can spot from the traffic circle.

The electronic marquees at the gates are great ways to advertise - I always notice them. The entrance to the post, ie main gate, should be more impressive. This is the first impression soldiers get upon arrival here. It can set the tone.

1. I feel that Buffalo Corral us under utilized.
The Sierra Vista Riding club off post has many events that I'm sure Ft. Huachuca could also sponsor. There could be monthly or quarterly gymkanna's for kids. They could come with there own horses or use the corral horses. Wren arena is a great place to hold these events. There used to be rodeos there as well but not anymore.
2. I have heard that families can rent out MWR Rents for birthdays but that the facility really could be renovated to add more activities for special events. More and better arcade games, new paint on the walls, etc.
3. There is a need for a teen center on post. There is no place designated for teens only. This has been an issue here for at least the last three years and there has been no progress.
4. Privately owned weapons range: the wooden targets need to be replaced with steel targets.

I feel that considering the amount of money that AAFES contributes to MWR every year, the facilities should be pristine and the people who work in these facilities should be immaculate and incredibly polite and they should bend over backwards to make sure that life is good for the military member and their spouses and families. That does not appear to be the case. The base we live on and the facilities that we contribute to should always cater to the soldier first and then to outside interests later. The soldier should be the most important thing always, and deserves the most respect and the best treatment, the best of everything. Not everyone puts their life on the line everyday for us, God and country, so why aren't they getting the best treatment. The MWR rents here on base falls way short of filling the needs of these soldiers and those working in this facility do not seem to care much about the upkeep and maintenance of their rentals. I suppose they are merely content to rest on their laurels and continue to collect their paycheck at the expense of the American Soldier. That is very sad.

I came from Camp Zama, Japan. The MWR there was great, quarterly fishing Derby's, Washington Redskin Cheerleaders, WWF Boxing. Plus Christmas Around the World, Asian Pacific Islander celebration. At Zama I knew everytime they had these events, I knew if they needed volunteers, the opportunity to volunteer and be a part of these events - here I hear nothing and I don't feel as involved here. I know overseas things are different, you have no extended family there and you pretty much do everything on the base. But still, it was very disaapointing moving here and not having the things I was used too. Every other Wednesday (Wednesday was family day) the bowling alley had free bowling from 3:30 - 5:30. Easter, Halloween, - bowling alley or club would host special events. Quarterly the club would have a special themed family night, reasonable priced, with entertainment, giveaways and the buffet was short (height wise)so the little ones could get their won food. There was so much at Zama that was family oriented, here there is nothing. Even the BOSS program, I don't hear much about it, we always volunteered to set up, BBQ, take food - though I am married, we still supported BOSS by providing any assistance they needed so the single Soldiers had less to do when it was an event for them (Spring Fling, Quarterly dinner, BBQ). The mayorial program here does not exist. I tried to involve myself and filled out an application, and I never heard from the sponsoring unit. There is not yard recognition program (Yard of the Month), no signed, no pictures posted anywhere, of the mayors or the yards of the month. Here, everything seems to be focused on the trainees and not the families.

MWR services on this post are comparable with most places we've been. I miss the Lakeside Club, mostly for it's beautiful setting and furnishings. It's just not the same going to a Ball or formal function at TMAC-kind of like getting dressed up for a Prom at the gymnasium. I think some nicer decor at TMAC (less casual) would really help this. I also feel that the food is overpriced for most functions, and not as good as it could be. I HAVE seen what TMAC can do on occassion-very impressive- and I don't know why this isn't consistent from function to function.

Even though I choose not to use many of the MWR functions available here at Ft. Huachuca, I have used them at other posts and find them very comforting and useful in my life, especially when my spouse is deployed. All of my friends with children rely heavily on MWR for activities and entertainment year round. I'm a staunch supporter of these programs and would really hate to lose even one of those that are offered here. It makes the community strong, builds family and friendships, and offers a sense of continuity and comfort for Army families everywhere.

Though programs are available, I didn't find out about them until it is too late ie AFTB, my husband had already been at his first unit for 6 months. FRG is worthless in a non-deployable unit.

Overall Comment

There is a definate lack of programs and events for families with very young children, most of the programs revolve around retired people, or people with grown children. Lots of money is wasted on the golf course, we don't have enough water to water our lawns on post, but we have enough to water the golf course.
The MI part of the instalation has poor functining FRG's. While my husband is deployed I am not staying at Ft. Huachuca. They should do it right or not do it at all. My husband's company commander forces people to go to FRG meetings and I mean forces and they are compleatly worthless.

Many of the facilities are getting old and run down. It seems as though they buy one or two new things, but the affect is very small. Some of the facilities should be replaced altogether rather than fixing one thing at a time. A major example is the club system. Very few people use the clubs on post because they are so poor. When they had a chance to fix the Lakeside they choose instead to fix the LaHacienda (due to money concerns) The problem is that no on liked the LaHacienda to begin with. Fixing it a little was a total waste of funds. Building a new club at the Lakeside location would have shown that the installation cares about it's soldiers. Money drives the train in all decisions - not the concerns of soldiers.

I have used the MWR Box Office for almost all of our entertainment based ticket purchases ranging from local events to out of state events. I am very satisfied with the programs offered, especially through the Child Development Center. If you are looking for comments on how to make things better, the only area I can see could use improvement is trying to have more concerts, plays and shows in the local area. I believe we have limited access to those things due to the fact that Sierra Vista is a small and remote town. I greatly appreciate the effort that the Army and MWR makes to take care of the military family.

My family has been here since Nov 2004, We are slowly but surely getting out to see what Fort Richardson's resources are for family entertainment up to this point we have stayed busy and are satisfied with whats been offered such as the Anchorage Expos that have come out to share information to newcomers. One of the newest additions is the shuttle van provided by YMCA, I dont think our Fort Richardson community realize how much YMCA offers to us, I feel in comparison to MWR they're not to far behind.
